ANNEXURE

Annexure 1 71

- Public Works Department: Main roads, high-mast lights
- Rural Development and Panchayat Raj (Roads, Sewerages and Drinking water schemes etc.)
- Prime Minister Rural Road Scheme (PMGSY)
- BBMP Solid waste management (Main roads and residential area roads)

Annexure 2 80

- BBMP Main Road schemes (inter connecting roads, pedestrian roads, Sewage and other basic facilities)

Annexure 3 82

BBMP

- (BBMP division level public works scheme) (Main roads, residential area roads, Sewage and other basic facilities)

Annexure 4 99

BBMP other schemes, such as e-library, Bridges, Rangamandira, Market, Crematorium etc.

Annexure 5 100

- Bangalore Development Authority schemes, such as Roads and Sewage development

Annexure 6 103

Housing: (distribution of title deeds, construction of houses, distribution of sites)

- Revenue department: places reserved for public utility

Annexure 7 109

- Lakes: Restoration, preservation and development of ground water.
- Small irrigation: lift irrigation and lake development schemes
- BWSSB: Cauvery water, pipe lines, sewerages
- Development of Storm water drainages (Development of Raja canals)

Annexure 8 112

- Electricity: new lines, underground cables, street lights, installation of 66/11 grids and transformers
- BBMP: street and residential area lightings

Annexure 9 118

- Education: construction of classrooms, toilets, basic infrastructure
- Libraries

Annexure 10 122

- BMTCTTMC Bus stands, Bus depots, new routes

Annexure 11 123

- Railway department

Annexure 12 123

- Health: primary health centres, development of basic infrastructure of hospitals
- Chief Minister's relief fund

Annexure 13 127

- MLA fund: community halls, school-classrooms, Rangamandira's etc.
- Women and child welfare: construction of Anganawadis
- Construction of BCM hostels, facilities to beneficiaries

Annexure 14 130

- BBMP 22.75 construction work: development of colonies, construction of houses, facilities to the beneficiaries
- Social welfare department: development of colonies
- Various schemes of social development, training, support and other initiatives

Annexure 15 135

- Endowment/Aradhana: development and restoration work of temples

Annexure 16 137

- K M F
- Home department

Annexure 17 137

Newly sanctioned works

FOREWORD

It is a great pleasure to write few words to a book, which explores and narrates the development works taken up in Mahadevapura constituency, represented by Shri Arvind Limbavali. I congratulate Shri Limbavali for achieving such a hard task and for changing the face of the constituency just in four years which he has represented for the first time.

It is easy to talk about public accountability and fulfilling the promises made to the public. However, it is very difficult to come out with real facts and figures and putting forth them to public scrutiny. Shri Limbavali has succeeded not only in taking such a challenging task but also in the accomplishment of promises he has made to the public. It is a unique and first of its kind attempt in Karnataka.

Arvind Limbavali has a background of social and student movements. He has successfully led many such movements. His journey as a student leader in fighting against injustice of the education system to a political leader is all very constructive process. Arvind Limbavali's contribution in making BJP as a popular political party in Karnataka state is also significant.

Shri Limbavali has represented Mahadevapura constituency since 2008. His determination, capability and competence have made him to successfully play a dual role: a Member of a legislative assembly and a cabinet minister. We will surely appreciate, when we complete the reading of the book, his skills and work discipline in achieving all round development to his constituency.

Limbavali has dreamt of making Mahadevapura into a model assembly constituency in Bangalore. I wish him to achieve the declared vision. More he succeeds in achieving his dream; people of Mahadevapura are benefited out of it! His humility, discipline and hard work are exemplary to the youth. His future contribution to the state will be very crucial. I wish him a successful journey towards achieving all his dreams.

(K S Eshwarappa)
President
Bharatiya Janata Party
Karnataka

How do you visualise Arvind Limbavali, MLA of Mahadevapura?

- The **MLA** who knew that the development of Mahadevapura constituency was the first priority to its people
- The **youth icon** who stressed the need to fight against the menace of terrorism.
- The **progressive minister** who brought revolutionary changes in the fields of higher education and Health .
- To the Karnataka people- A kind hearted **statesman** who rushed to help the people.
- To the party workers – Arvind Limbavali is a **politician with top notch organizing skills**
- To the dignitaries of the society - **A patriot** who deeply respects the Indian culture, Tradition and Heritage.
- **A friend** who is always ready to extend a helping hand, an approachable party worker.
- A smiling personality; yet a **“true leader of the people”** who can bring radical changes through his strong words.

To describe the versatile personality of Arvind Limbavali in simple words, he is the favourite representative of Mahadevapura Constituency and youth leader of Karnataka.

A new era of development in Mahadevapura

- In rural and urban blend, development work without discrimination has touched all corners of the constituency

Mahadevapura, is an assembly segment blended with villages, cosmopolitan extensions and peaceful outskirts towns. It is not only an industrial hub, but also houses several multi-national companies. Working class as well soft-skilled techies are spread across the constituency. It is diverse in terms of its language, religion and culture. Like India, Mahadevapura is in itself a place of diversities. One never believes, but truth is that, the most number of NRIs are located here. Constituency, which is named after Lord Shiva is vibrant, vivid and spectacular as Lord Shiva himself!

It was quite natural for such a diverse constituency to have elected a versatile, experienced personality like Arvind Limbavali four years ago. Arvind Limbavali has made honest efforts to provide justice to his position. All these progress has been achieved through a transparent; no compromise on quality system is what humble Arvind Limbavali had to say.

Asphalting and concreting of roads, Construction of bridges, pavements, repair and maintenance of drainage, pedestrian ways, Street lights, Bore wells, development of lakes, Community halls, toilets, state highways, High-mast lights, women empowerment training and community halls, school buildings – are the overall developmental activities undertaken. Such developmental works, which have been catered to all the sects of the society, are examples of Arvind Limbavali’s able and successful management of his responsibility as a legislator. Such successfully completed and ongoing projects have made Arvind Limbavali proud of his work. He is also happy that all these projects have been fruitfully accomplished on time with the strong support of party workers, Government officials and cooperation of the public.

Neat and beautiful tar roads now rule Mahadevapura, which were earlier filled with pot-holes, mud and dust. Areas with no lung space now have beautiful and spacious parks. Clogged drainage and sewer lines have now been de-silted. Public hygiene is quite evident now.

The social health of Mahadevapura constituency has also significantly improved. There is no history of communal conflicts over the last four years. Statistics prove that there have been low crime rates. Mahadevapura has now evolved into a land of new possibilities and opportunities.

This is just a small example how Limbavali's mettle brought in a great change to the people of Mahadevapura. Developmental works have been undertaken and completed efficiently in all the eight wards of the constituency.

Many Non-governmental Organizations have also been instrumental in the growth of Mahadevapura. Arvind Limbavali expresses his gratitude to the public, officials and party workers for their support. Limbavali feels that the love, affection and encouragement of the people is the secret behind his success.

A panoramic view of Developmental works

What are the changes we witness in Mahadevapura constituency in the last four years? What did Arvind Limbavali feel when he stepped in Mahadevapura for the first time? In his own words: “Alas! Why Dr. D.M Nanjundappa did miss visiting Mahadevapura?” It is but natural for such response, as Limbavali has studied Nanjundappa committees report on’ regional imbalances and the backwardness of the regions’. He was astonished with the backwardness of Mahadevapura after visiting it first time! “Do you think you are capable of developing Mahadevapura?” Do you think you can bring significant changes” hapless public questioned him when he went to campaign in the constituency. It is true that Arvind Limbavali, did not make any promises, just kept silence.

No roads, toilets, schools without teachers, connecting road without bridges, several examples of land encroachment- Such was the situation of Mahadevapura.

Now we can proudly say that the situation has changed. Roads, drains, pavements, electricity, water, clearance of encroached lands and regularized slums – name it; you will witness the change!

Arvind Limbavali has written down in his diary all the accomplishments he made in the first four years of his first term as MLA along with the yet to be completed developmental works. The people of the constituency feel that any task recorded into his diary would never be left uncompleted. For example: Arvind Limbavali has learnt that primary health care hospital and safe drinking water are the prime necessities of any constituency. He has started several schemes of renovating lakes and increasing ground water levels.

When we witness enumerable examples of developmental works in the very first term of his leadership, we can truly hope for such changes even in the future.

■ **Mahadevapura had never dreamt development. All development plans were envisaged only after 2008, it is a record that most of them have already been completed.**

Let's identify the problem Let's solve it!

A transparent way of serving people has been the secret of Arvind Limbavali's success. Please feel free to visit, inspect and record the developmental works undertaken and bring it to his notice if you find any discrepancies. Arvind Limbavali is always open to accept criticism, identify the root cause of the problem and solve it; he is honest enough to accept the delays and discrepancies if any, of the projects undertaken.

Shri Arvind Limbavali has been working very sincerely for the development of Mahadevapura constituency, which unlike many other Bangalore constituencies has unique challenges of huge size & urban-rural diversity. Mahadevapura has many villages coexisting with the largest of the Multinational corporations.

He worked on a comprehensive development plan for the constituency by establishing Mahadevapura Agenda Task Force to discuss, analyze, plan & implement development projects in the field of health, education, sports, culture & road infrastructure. Land allocation for a sports complex, establishment of a digital library, rural market places, world class roads & footpaths are to name a few of his initiatives. He also organized "Job Melas" to provide employment opportunities to unemployed youth by bringing together employers from various sectors & industries. Given the political flux in the state & changes in Government, his achievements are even more noteworthy & commendable. I wish him all the best.

- RK Misra
Entrepreneur and Political leader

1200 Crores for development

The funds poured in for the developmental works of Mahadevapura in the last four years exceed 1200 Crores. These funds have been used for providing basic facilities, civil amenities, education, construction of houses, for the welfare of people of Mahadevapura.

What was the miracle idea in raising such huge funds? Answer was intelligently simple enough! Arvind Limbavali effectively utilized all available funds from various sources, such as funds available for Bangalore development, funds available in housing, education, health, social welfare departments. He prepared a plan of action to make use of union Government schemes and MLA funds.

You will find the complete details of these funds in the next page.

If an MLA decides to develop his constituency, the Government would also respond and the developmental funds can be used for the benefit of the people in the right way. Also, they would not be misused, rather high quality developmental works can be executed. Developmental works in Mahadevapura are good examples of this.

There will be an ongoing process to raise such funds for developmental works next year as well. Mahadevapura constituency people can be sure of more such developmental works in future too.

- Home department

Total **124852.58**

Please Note:

- The projection does not include reserve of 270 acres Government land which values Rs. 1350 Crores.
- Projection of the figures of beneficiaries of Bhagyalakshmi, Sandhya Suraksha and various other schemes is not included here.
- New projects and schemes indicated at the end of the book do not reflect here.
- Namma Metro project has not been indicated here
- Newly sanctioned works are given in Annexure 17 (page 137)

New roads everywhere

Revolutionary agitations are held on roads. However, construction of roads in Mahadevapura is a revolution in itself!

- **New roads, where there were no roads!**
- **No compromise on quality of work**
- **Asphalting from highway roads to pathways**
- **Laying short-cut roads has saved substantial time of commuters**

The words might seem overstated. But if you visit Mahadevapura the revolutionary changes can be seen with your own eyes. Arvind Limbavali made a list of civilian’s complaints and took those to officers. He sourced funds from various schemes.

As a result, roads in Mahadevapura are now developmental landmarks. You can find smooth highways and the connecting main roads have taken a new shape. One way roads and link roads which connect these now have a new dimension. Various categories of roads have been constructed using funds from various projects of BBMP, PWD, RDPR, PMGSY, CMGSY, ASIDE, PPP and other sources.

To realize the dream of comprehensive development of the constituency, Mahadevapura Developmental Agenda was set up under the leadership of renowned social activist Shri R K Mishra. Based on the scientifically drawn plans, basic infrastructure works were initiated

No compromise attitude of Arvind Limbavali a civil engineer himself produced quality roads in Mahadevapura. You will surely experience it while you move around constituency.

Limbavali believes that leftover road construction and repair work will be completed shortly.

Construction of Inter-Link Roads

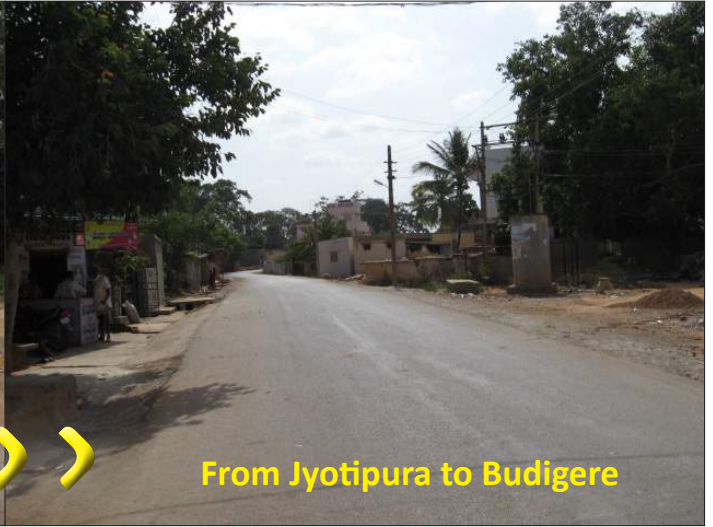

Construction of interlink roads to reduce traffic density and distance between areas

- Construction of ITPL road via H.A.L. main road, Doddanekundi, outer ring road, Chinnappanahalli Layout, Graphite India has reduced traffic density and distance between Marathahalli and Kundlahalli junctions.
- The construction of outer ring road from Sarjapur road via Gear college-Devarabisanahalli route has reduced the distance by 4kms.
- Construction of road which leads to Kadugodi from NH4 via Medahalli, Kurudusonnenahalli, Belattur has saved time, fuel and has ensured safe journey to ITPL travelers.
- Construction of Avalahalli road from Hennur Bagalur through Bilishivale, Rampura, Hirandahalli to International Airport.
- Construction of Sarjapur flyover is yet to begin.
- Construction of road from dommasandra through sulikunte, sulikunte colony chikkanayakana halli Dinne to parappana Agrahara near Maata Amrutanandamayee College.

Roads now, roads then – A glimpse

From Jyotipura to Budigere

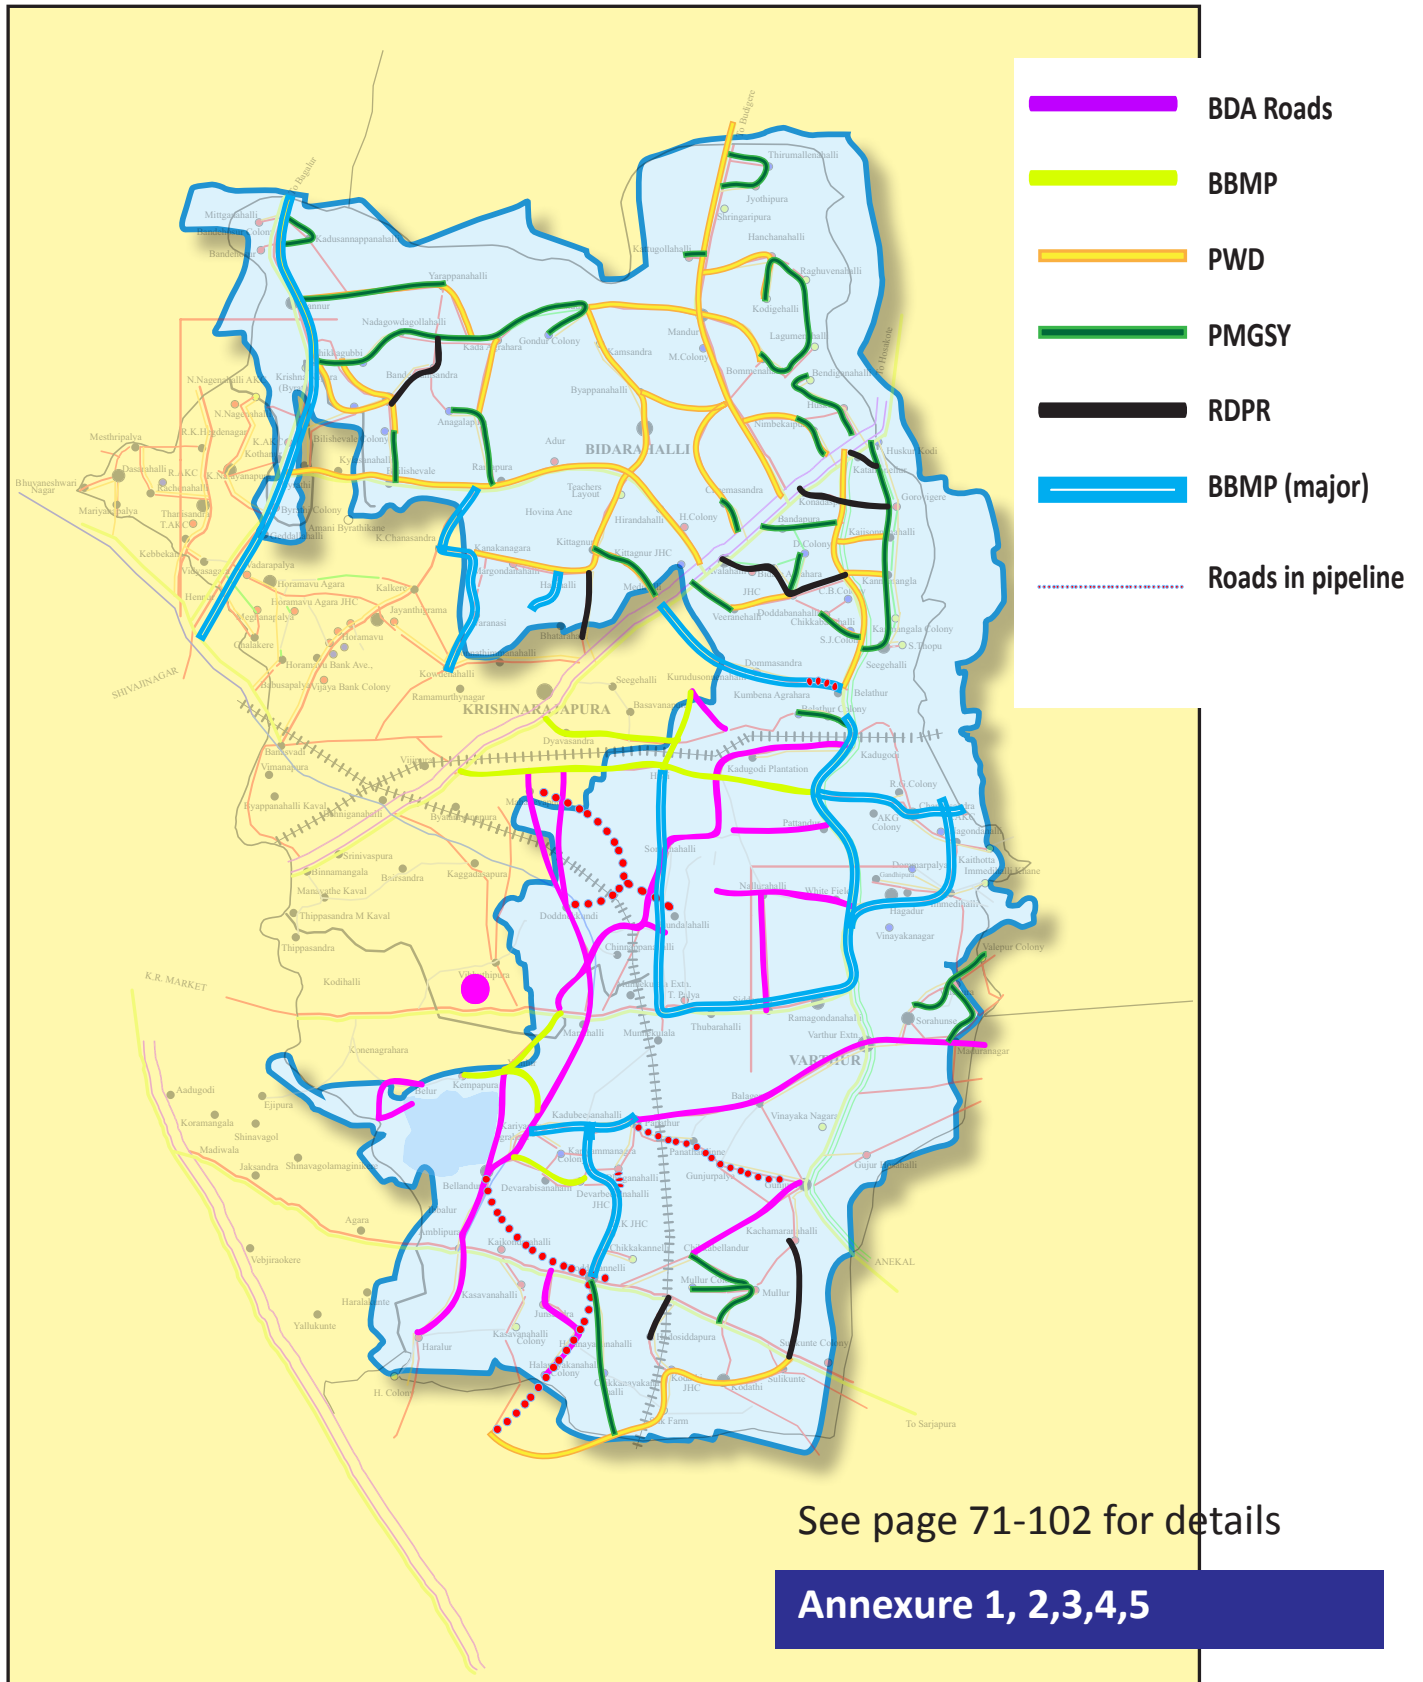

From Raghuvahalli to Huskur through Lagumenahalli

From Sarjapur road via GEAR College, Doddakannalli: outer ring road

Bird's eye view of important new roads

See page 71-102 for details

Annexure 1, 2,3,4,5

Housing demands of rural and urban areas of Mahadevapura are entirely different. In Mahadevapura the constituency with rural and urban blend, construction of houses, distribution of title deeds to those who are dwelling for the past 30 years in the homes built on Government land, to reserve land for public purposes, to allot site/house, title deeds to people who have applied for it decades ago under 94C but not received the same. Arvind Limbavali has been working in an organized way in many dimensions.

Equitable distribution of housing title deeds in Bangalore city is no doubt a huge social challenge. Out of 48 locations in BBMP limits, 39 habitations were identified and distribution of deeds is on anvil. In this Title deeds have been distributed to more than 800 people and distribution of 6000 title deeds is in progress. The process of reserving land to distribute title deeds is in progress in remaining 9 places. For the homeless poor in urban area, 232 houses have been built in Sadaramangala and Varturu have been built. 256 houses are near completion in Channasandra. There is plan to build 2000 houses in near future.

In rural areas, title deeds have been given to 700 households who have built houses in Government land; in another 32 villages land is being earmarked to give title deeds to around 1800 beneficiaries. Construction of 1240 houses under Basava Vasati Scheme with a financial aid of 75,000 rupees each is in progress. Under the same scheme, houses will be built for those with sites. Government land has been reserved to distribute sites to those who do not have one.

Distributing title deeds is not the end of the problem: they need to be given basic facilities also. That is why Arvind Limbavali has provided facilities like electricity, drinking water, community centre etc., to many areas.

Reserving Government land for public utility

In Mahadevapura in last four years, around 270 acres of encroached Government land (total cost even if calculated 5 crore per acre, turns out to be 1350 Crores) is evacuated and cleared and the land is now reserved for public activities. This land is exclusively meant for the infrastructure facilities needed for the overall development of the constituency like international stadium in Gunjuru Palya, Vemana Jnana Mandira, Government First Grade College, Polytechnic, Library, Market, Parks, Schools etc.

Housing, distribution of title deeds and reserving sites: An incessant drive

- Initiatives have been taken to distribute title deeds to the people dwelling in Government lands in Kadugodi, A K colony, Ambedkar Nagar (Gutta), Dinnuru, Nallurahalli, Vijayanagara, Whitefield's Gandhipura, Sadaramangala, Chikka Bairati, Bairati Bande and Kundalahalli colony habitats.
- In BBMP area 432 civilians have been provided 3 lakh rupees each financial support to build homes under 22.75 schemes.
- Building houses for the homeless is in progress in 8 acres land in Gunjuru and in 6 acres land in Marath Halli.
- Totally 716 title deeds are being distributed by Rajiv Gandhi Housing Board. Details: Kannamangala-Dinnur village 62, Goravigere 72, Chikkanayakanahalli Dinne village 288, Doddakannalli village 212, and Vijayanagara/ Gandhipura village 82 households.
- Construction of 500 houses in 5 acres land in Kodati village is underway under by BSY-Bhagya-Sampada-Yashassu- scheme.
- 9 acres 21 Guntas in Hadosiddapura, 10 acres in Sulikunte, 9 acres 20 Guntas in Kannur village, 5 acres in Kodati, 2 acres 16 Guntas in Mandur village, 5 acres in Byappanahalli, 34 Guntas in NG Gollahalli has been preserved to distribute house/ site or build housing complexes to the poor under Ashraya scheme. BDA is constructing housing complex at Gunjuru.

More than 270 acres of Government land for public utility

Like in the other areas in Bangalore, even Mahadevapura had no common Government land for community events and public utility. Arvind Limbavali identified such encroached Government lands and cleared the encroachments in a peaceful way. To ensure security of such places, he arranged fencing of them and reserved them for public utility. Around 270 acres of encroached land is now available for public activities which is a big achievement indeed. This has added a new dimension to Mahadevapura. Total cost of such evacuated Government land, even if calculated 5 crore per acre, turns out to be 1350 Crores. There are schools, lakes and even graveyards in these lands! Now they are in Government custody.

For details, see page 103

Annexure 6

Challenges in providing water: Working towards a permanent solution

- **Fencing to all lakes, tanks**
- **Provision of Cauvery water**
- **Rural areas also get Cauvery water**
- **Initiative of Meter Mela**
- **Blue print for Lakes restoration**
- **Pump wells to address water issues**
- **Phenomenal improvement in drainage and sewage system**

Even though Mahadevapura constituency has many water sources, it has encountered water scarcity. But there have been honest efforts in the last four years to solve the water problem. Arvind Limbavali has made continual efforts to find a permanent solution to this decades old problem.

- Recently pipelines have been laid out to supply water to old CMC area villages which come under BBMP limits at a cost of around 40 Crores. People have been requested to install meters to avail the service of Cauvery water. “Meter Melas” have been organized in various wards by Bangalore Water Supply and Sewage Board (BWSSB). Public awareness about supply of water has been created through such programs. Also the rules of getting access to water have been eased.
- Bellandur, Ramanjaneya layout and Ashwathnagar which come under BBMP limits have now been provided drinking water facility.
- In last four years Zilla Panchayat engineering division has put efforts in providing water to villages by drilling 162 Borewells and laying out pipelines. 10 water storage tanks have also been constructed.
- Arvind Limbavali thinks construction of drains is also equally important. Construction of drains in 3 phases has been undertaken in old CMC limits at a cost of 162 crore and is being executed in various stages. Few of the sewage construction have been troubled due to non cooperation of contractors. However, officials have been directed to complete the work within stipulated time frame.
- Proposal to release funds has been submitted to the World Bank to construct drains, supply drinking water to 34 villages out of the 110 villages which have been newly added to BBMP. Arvind Limbavali’s efforts along with his cabinet colleagues from Bangalore to extend this to the remaining villages also will yield fruits soon.
- Arvind Limbavali is committed to solve this water scarcity issues in the best way in the coming days. Revival of lakes, de-silting and supply of Cauvery water – efforts are on to solve the problems by taking them up in various phases.
- It is commendable that using lift irrigation Yelemallappa Shetty lake water is collected in to Chennigenahalli, Nalluru, Konadasapura and Nimbekaipura tanks and is being used for drinking purpose and revival of wells as well.

Rejuvenation of lakes in a big way

Makeover and rejuvenation of Bangalore lakes is an ardent task, indeed. Makeover of the lakes located at the heart of ever growing city is even more challenging task. Imagine the difficulties of Mahadevapura with 36 lakes, the highest in Bangalore!

Visit these lakes to understand the efforts put in by Arvind Limbavali for their makeover; increasing the water table levels and their purification. The constituency's lakes are now protected by fences. This is the first step in the restoration of lakes. As a result, the encroachment of lakes has now been put to an end.

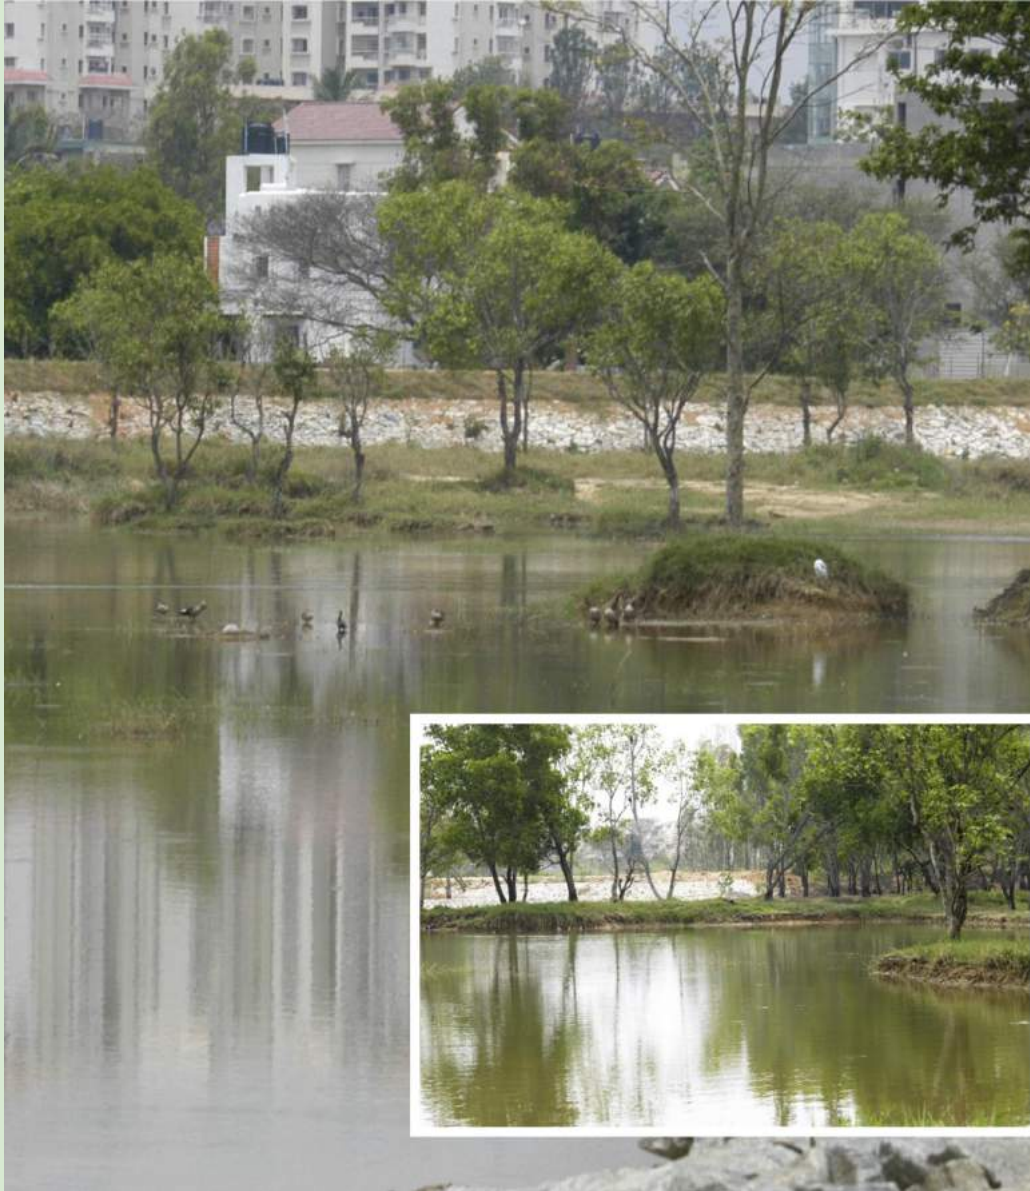

If you visit Kaikondarahalli Lake you will get an idea of how the subsequent phases look like. The lake bunds have now been restored. The waste water from the surrounding apartments has now been stopped from getting into the lake. A tiny island in the middle of the lake beckons you. You can also see rare birds. For all the enthusiastic bird watchers and photographers this lake is now a bird sanctuary in city limits. The Karnataka High Court once termed the development of this lake as a role model. There are a lot of opportunities for lift irrigation here. When the whole state has forgotten this method there have been serious efforts to bring this to light in Mahadevapura.

As an MLA, Arvind Limbavali is doing good work in all areas of the constituency. The people have belief in him and share a very good opinion. He has great interest in Mahadevapura constituency's developmental works and is honest in his efforts. He is also well behaved. To sum it up, He is a decent politician and an MLA.

- Shri Narayana Reddy BNB
Senior leader

Mahadevapura assembly segment has highest number of lakes in Bangalore city. In this context, the initiatives taken to restore, rejuvenate and beatification of lakes by Arvind Limbavali has a greater significance.

For details, see page 109

Annexure 7

Arvind Limbavali is light of our Ashram, as he has laid proper new road to it. He has helped us to build a room for our children through his MLA fund. His love and concern for children is commendable. His generosity, selflessness and his vision for development has made him good public servant. We pray for his growth, so that he can serve the people well.

- Father Gerald, Kannuru church

Lights to Houses as well to streets!

Most of the places in Mahadevapura in 2008 did not have street lights, even electricity lines. However, Arvind Limbavali succeeded in providing quality electricity, power connections and street lights. Rural and Urban-both areas get the same preference.

- All main roads, small streets, pathways are provided with lights, so that people can walk without fear. Important roads have been provided with sodium lighting system both sides and lighting is ensured.
- Beluru Ambedkar Nagar never had lights since independence! Unfortunately their only source of light was the light of the evening flights as this area is adjacent to HAL airport. Limbavali's efforts have brought lights to the streets as well to the houses.
- All roads in the constituency have automated control panels to ensure the control of wastage of electricity
- The rural area of Mahadevapura is supplied the same quality of electricity as in Bangalore. This ensures quality of supply, as well as uninterrupted electricity to rural areas also.
- 153 power transformers have been installed in rural areas
- Underground cables have been laid-down to supply uninterrupted power to EPIP and surrounding areas
- Two pole mounted transformers standing menacingly in the city area have been suitably shifted away from pathways and single pole transformers are installed
- Cash counters at Varturu to help-out public to pay electricity bills
- Customer care centre at Whitefield.
- Installation of 100 MVA transformer in 400/220 KW grid at Hoodi is in progress. As well, 200/66 KW GIS station installation at EPIP is under way. By this people of the area will get quality electricity.
- Works and Maintenance station has been started at Kadugodi in 2010, which fulfils the needs of customers of the areas which were in the rural limits of Hoskote earlier.

For details, see Page 112

Annexure 8

Revolution in the field of Education: A novel experiment

Arvind Limbavali is a young leader who evolved fighting against rickety Education system in the state. One can see the efforts he undertook for the education revolution after he became the MLA of Mahadevapura.

Two new Government First colleges have been started in Varturu and Kadugodi.

People think that SJP is the only Government polytechnic in Bangalore. However Government polytechnics have been established in the Channasandra in Kadugodi ward and immadihalli in Hagaduru ward. The construction of the building is in progress, which provides hostel facility too. Even at the time when it was nearly impossible to start a high school in Karnataka, Limbavali fought for the high school and now Doddabanahalli has it. 20 gunta land is reserved for Urdu school in Marath Halli. English medium has been started in the Government high schools of Doddanekkundi, Kadugodi, Jyotipura and Kannamangala . Many of the school properties had been encroached in the constituency. Now all the data has been collected and unauthorized encroachment has been vacated. Mahadevapura now has SC/ST hostels too.

Mahadevapura has many state-of-art international schools at one end; schools which lack even the basic facilities at the other end. When Limbavali

learnt that a few primary schools lacked teachers for a couple of subjects, he immediately formed an Education task force headed by Shri Harish, chairman, Vaagdevi schools which is another inspiring story. This task force made use of the public fund and consisted of young and passionate people who volunteered to teach. Arvind Limbavali has poured in all his experience gained as a student leader to enhance the quality of the education system in the constituency.

A wide area of more than 27 acres has been identified in Gunjuru Palya for an international sports stadium in Mahadevapura. Plans have also been on anvil to build an international training centre for the local sportsmen. Arvind Limbavali aspires that sports should also be a part of studies and good hostels need to be built for students.

It is but natural for Arvind Limbavali who evolved from the blaze of student movements to envisage and execute in this style.

Azim Premji Foundation has joined hands with Arvind Limbavali's cause of education by taking up various activities in many Government and private schools of Kodati village panchayat. The foundation has served in various dimensions like training to teachers in English, Kannada and mathematics subjects, capacity building for heads of educational institutions, health surveys, basic infrastructure etc. A comprehensive action plan is being implemented in these schools.

Wave of Education campaign

- Government First Grade College in Kadugodi (2009-10);
- Government First Grade College in Varturu (2009-10);
- Government polytechnic in Immadihalli (2009=10)
- Government polytechnic in Channasandra (2009-10)
- Government high school in Doddabanahalli (2010-11);
- Sports materials to Kannamangala Government school through Education task force.
- Introduced English medium in Doddanekkundi, Kadugodi, Kannamangala and Jyotipura Government high schools from 2010-11 academic year
- Under SSA and BBMP , BDA and Education task force grants more than 120 classrooms are constructed

Arvind Limbavali has formed an Education Task Force with like-minded people, headed by Shri Harish, chairman, Vaagdevi group of institutions to tackle the issues of education sector in Mahadevapura. Task force deputes external teachers to such schools, where teachers are in shortfall. It is a unique initiative in the state.

Construction of e-library at Tubarahalli is underway

Annexure 9

25 -30 years dream of the muslims of Kadugodi area has come true. For decades nobody responded to the aspirations of muslim people. But our MLA Arvind Limbavali has ably responded to our problems. He has materialized our 30 years dreams, be it Idga ground, place for Urdu school, English medium in high school etc. His pertinacity to complete the work is highly commendable. We, the Muslim community of this area pray for his wellbeing.

- Moulana Iamail Saab

Priority to Health

Now Health minister Arvind Limbavali has ably taken care of the health of Mahadevapura constituency, ever since he is MLA.

- Including two mega health camps, totally six medical camps were organized. Mega Health camp organized at Varturu witnessed 13700 patients. All patients were given free transportation and free food supply for two days. Medicines for ten days are also provided free of cost. Arvind Limbavali's organizing skill was highly appreciated by the participants. Recently held Mega Health camp at Kadugodi witnessed 16000 patients and availed free medicines too. Patients who needed higher medical care were taken to hospitals and treatment was provided by the followers of Arvind Limbavali. Many of his admirers and followers extended financial support to the patients as gesture of their social work. All eye operations were performed free of cost.
- Arvind Limbavali has also extended his support to many patients by making them avail maximum funds from Chief Minister's relief fund
- He has taken various initiatives to increase medical facilities to the needy ones.
- Mandur has got primary health centre. Primary health centres of Kadugodi, Doddanekkundi, Varturu will start operating soon, as the

construction work is completed. Centres of Varturu, Avalahalli, Doddanekkundi and Kadugodi will provide round the clock service to the people

- Proposed 100 bed hospital will come soon in Siddapur, a village of Hagadur ward. The Bhoomipuja is just over.
- Community Health Centre (CHC) will be established soon at Avalahalli
- Primary Health Centres (PHCs) will be started at Kodati, Halanayakana Halli, Hoodi, Kannuru, Bidarahalli and Marath Halli.

Annexure 12

Improvement in Transport system

Transport system of Mahadevapura has been completely transformed in four years.

- Volvo buses (335 series) for every minute from Kempegowda bus stand to Mahadevapura. These buses have reduced travel time and expensed to the commuters.
- Construction of 36 crore state of the art TTMC bus stand in EPIP zone.
- Construction of new bus depots in Kodati, Gunjuru. These depots will start their services soon.
- Bus facility has been introduced even to the villages.
- More than 50 BMTC new routes have been introduced

Inauguration of redesigned Kadugodi railway station

Namma Metro 2nd phase

Rs.24,600 Crore 2nd phase of Namma Metro work is under way.

Asphalting the roads, rain water harvesting and pavement works are in full progress in Whitefield's EPIP zone. 16.40 Crores have been released to asphalt the 4 lane 5.5 km long highway and work is in progress. The 4.5 km 2 lane internal highway work is also in progress. Construction of 2 lane underpass in Graphite India Junction near the EPIP zone would also begin as soon as the transfer of utility facilities is done. All these works have been carried out under ASIDE scheme

It is important to note that the civil works of this area are identified, planned and executed only after Arvind Limbavali elected as MLA of Mahadevapura.

The special feature is underground electric cables have been laid for uninterrupted power supply in this area.

2nd phase of ASIDE

During 2nd phase of ASIDE works, 4 KM stretch of Varturu road will be widened and developed at the cost of 14 Crores. Road covers Siddapur bus station to Big bazar, located on Whitefield's road. Another connecting road to State highway 35 will be developed covering 3.5 KM. Estimation of the project is 10 Crores. Likewise, main road located on Accenture to ITPL will be developed. Estimation of the project is 6.5 Crores and coverage of the road is 1.2 KM.

As Mahadevapura is very convenient place to reach numerous IT companies, constituency encompasses hundreds of apartments. Various residents' welfare associations consult their representative Arvind Limbavali and find solution for their problems. Problem of stray dogs was an issue and solved effectively. Increase in the number of streetlights has made apartment residents walk without fear in night times. Apartments are also provided with approach roads, to avoid traffic jams. Shri Arvind Limbavali has also helped many apartment owners to acquire clear title deeds from the construction companies. Shri Limbavali is well aware about the acute water shortage in the area. He has initiated a permanent solution to solve the problem

Apartment residents' problems solved

Dear Sir,
The Whitefield Settlers' & Residents' Association is extremely grateful to the Hon'ble MLA, Shri Arvind Limbavali, who has been extremely dynamic, which I never witnessed in my 40 years of stay in Whitefield by any other MLA. The meeting was very useful. Many thanks & Regards

- Balakrishna

Dear Sir,
I would like to commend Mr. Arvind Limbavali and his team for organising such public events which demonstrate the concern he is showing towards the common problems faced by people. I thank him again for all his efforts in bringing people together and listening to their problems. Keep up the great work and we are with you. Have a blessed life.

- Manoj Jhanji

Hello Sir,
Please communicate my appreciation to Mr. Limbavali. He is definitely doing his bit for the people of Mahadevapura.

- Arun Bharadwaj

Various photos of Resident Welfare Association activities. Arvind Limbavali has heard their problems carefully and solved them amicably.

Firm steps in Social development

Job fairs to facilitate jobs to youth; community halls to public activities; police stations to ensure public security; fire stations; electric crematoriums, various training programs to the down-trodden; Ambedkar Bhavanas; various education institutions; widow and old age pensions; tanks for water storage; various development works from MLA fund- you name it, Arvind Limbavali has touched it and completed. His work in social development is wide-ranging and diversified. Arvind Limbavali’s work reflects his inclusive development philosophy .

● Coexistence of Peace and harmony; reduced crime rate

Though average crime rate of Bangalore increased periodically, crime rate in Mahadevapura on contrary is reduced by 25%! All the more, Dalits, Hindus and Muslims live in peace and harmony in the constituency. It is a unique development in the state. Coexistence of peace and harmony is the speciality of Mahadevapura.

● Revolution of Roads

- HAL main road to Doddanekkundi , outer ring road, Chinnappanahalli Layout, Alpine Apartments, construction of ITPL road via Graphite India has reduced Traffic density and distances in Marath Halli and Kundalahalli junctions. The travel time has been reduced considerably. Many roads have been developed in Dodda nekkundi ward, similarly roads in Kadugodi have improved.
- Development of the road that leads to Kadugodi from NH4 via k Dommasandra, Kurudusonnenahalli, Belaturu has become the main connecting road to ITPL .
- Construction of road from Avalahalli to Bagalur through Bilishivale, Rampura, Hirandahalli has facilitated smooth and easy journey to Bangalore International Airport. Also the road from Dommasandra through Sulikunte, Chikkanayakana Halli Dinne to Parappana Agrahara has seen unprecedented development. The roads of Kodandarama Nagar have recently been developed.
- Many roads have been developed in Hagadur ward including the link road from Siddapura to whitefield through nalluralli and a link road from whitefield through hagaduru, immadiahalli, Nagondanahalli to Channasandra (Chikka Tirupati road)
- The construction of outer ring road from Sarjapur road via Gear college- Devarabissanahalli route has reduced the distance by 4 KMs. Roads in Hoodi, Ayyappa Nagara, Varanasi, Bilishivale, Bairati, Bairati Bande, Belaturu and Belaturu colonies have been improved very recently.
- The road from outer ring road which joins ITPL road through Chinnappanahalli, Kundalahalli colony has also been developed resulting in reduced travel time.
- The road from TC playa main road through Varanasi to k Channasandra is also developed
- Fly over work near Bellanduru and Devarabissana Halli off outer ring road and an under pass work in Kadubisanahalli are in progress

...They waited for 30 years; now share the happiness

- Main connecting roads of all the villages of Avalahalli, Manduru and Bidarahalli ward have been improved. 11 important roads of these three wards have been upgraded and developed by PWD. Kannuru main road has also been developed.
 - 10 KMs travel distance is reduced due to the road from National high way through Veerena Halli, Doddabanahalli to HKA road
 - The road from Parappana Agrahara main road to Doddakannalli through Maata Amrutaanandamayee College, Kodandarama Nagar, Amrut Nagar, tank bund, Someshwara lay out is also in progress. This also happens to be an important interlinking road
 - Also the road from Kittaganuru, Halehalli, Haaragondanahalli, K Channasandra to Bilishivale has brought big relief to the people of that region
 - The public have already been using the main connecting bridge near Immadihalli Karumaariyamma temple on Whitefield – Channasandra road, the bridge on the road to Rampura burial ground and the bridge near Alfa college near Dodda Gubbi. Bridge construction to Bellanduru lake near Yamalur is underway. Link has been established to the road from NH 4 through Kittaganur to the Bairati - Avalahalli road near Bidarahalli by erecting a bridge to the lake near Kittaganuru.
 - Ayyappanagar had only mud roads; not to mention about drainage facility; now 5 crore work is under way in that area
 - Ayyappanagar – Kodigehalli- Sadaramangala- Belaturu parallel road has changed the whole environment of the surrounding areas which eventually have witnessed real estate boom.
 - Earlier road from ITPL to Raja Palya , Tigalara Palya was very narrow; the road was widened by convincing the private land owners by which the important bottleneck has been removed.
- **Distribution of title deeds**
 - A long pending title deed distribution work is now an ongoing exercise in the constituency. The anguish of getting a proper title deed under Government rules is no more. Their waiting has bore fruits and now legally entitled persons can get their title deeds easily; now they celebrate their happiness. Title deeds have been distributed to those who have been dwelling for the past 30 years in the houses built on Government land in Devarabissanahalli, Kempapura colony, Goravigere, Kannamangala Dinne , Huskuru Kodi, Basavanna Nagara, Cauvery Nagara, Vijayanagara, Gandhipura and other villages. Title deeds are being distributed to those who are residing in more than 70 Government land areas. The residents of Chowlukere bund are being given title deeds and are being shifted to the houses built by Slum development board in Varturu village. Also the poor urban dwellers in the constituency are identified and are being shifted to the houses built by Slum Development Board in Sadaramangala and Varturu.
 - **Revolution in Education sector**
 - Government Degree colleges have been established at Varturu and Kadugodi which receive more number of young girls than boys. Dedicated teaching staff has succeeded in improving result by quality teaching.
 - Opening new polytechnics in Immadihalli and Channasandra have cherished future dreams in students.
 - 27 acres land has been reserved for international stadium in Gunjuru Palya. Mini stadium has been developed in Hoodi. Government land has been reserved for Government School and Urdu school in Marath Halli and for Urdu school in Kadugodi.
 - English medium is started in high schools in Doddanekkundi, Jyotipura and Kannamangala high schools. Government high school has been established in Doddabanahalli.

- Additional class rooms have been constructed in many Government schools in the constituency. Construction of a unique e- library is nearing completion in Tubarahalli. New library has been started in Haalanayakanahalli. Construction work of newly sanctioned library in Bilishivale will commence soon.

● **Water, sewage system, streetlight, power – the basic infrastructure:**

Some localities did not have electricity supply since independence. Now lights are illuminating all those areas. The houses of Beluru Ambedkar Nagar localities which were receiving the light from flights of HAL are now bright with electricity lights!

- Even having street lights was dream for decades! Sensitive places of tank bund area of Varturu, Bellanduru now are bright with street lights; people can walk any time without fear.
- Roads from Ibluru junction to BBMP limits, many important roads including roads in Marath Halli , ECC road of Garudachar Palya , road from Varturu Kodi to Hope Farm, important roads of Kadugodi, which had never seen the electricity lights are now illuminated with street lights which has enabled people to move without fear. More than 30 high mast lights have been installed in the constituency.
- Uninterrupted and quality power is being supplied to 12 villages in the rural area which was a dream of many years. Load shedding is avoided in EPIP area and quality voltage power is being supplied.
- Many lakes in the constituency including lakes of Ambalipura, Kaikondarahalli, Bellanduru, Varturu, Saadaramangala, Chikkanayakanahalli, Kodati, Chinnappanahalli, 2 lakes of Hoodi village, all the lakes of Kadugodi ward, Ramapura lake, Sitaramapalya lake, 2 lakes of Garudachar Palya are protected by chain link fencing. In many lakes walkways have been constructed which were unheard before. Bridges have been built to Yamaluru and Rampura lakes.
- New gardens have come up in AECS and BEML layouts in Doddanekkundi, Haraluru and Kadugodi.
- Government hospitals in Avalahalli, Kadugodi, Varturu and Doddanekkundi have been developed and have been offering services round the clock. Primary health centre is established in Manduru.
- Bus stand has started operation in Kadugodi, bus depots have been started in Gunjuru- Kodati; TTMC has come up in ITPL.
- To get Cauvery water for drinking was the dream of the constituency. Now it is reality for some of the localities. To address the acute shortage of water, Bore wells has been provided in some localities.
- Cauvery Nagara slum which had been deprived of all facilities now has roads, sewage system, street lights now, title deeds have been distributed to the residents. Stree Shakti Bhavan has also been built, drainage has been constructed to Raja canal.
- For the first time water tanks have been constructed in Kodandarama Nagar, Halanayakana Halli, Chikkanayakana Halli, Haadosiddapura, Hiranda Halli, Bidarahalli, Kattugolla Halli, Goravigere, Avalahalli and in other villages.
- Roads, sewage systems have been provided to Sitaram Palya - Basavana Nagar- ITPL road till Hoodi
- Well equipped fire station on PPP model is functional in Kaikondarahalli. Land has been reserved for such fire station in Channasandra also.
- Many years demand for market yard in Varturu has been fulfilled and the land has been earmarked, market will be built soon.

Arvind Limbavali is proud to fulfil three decade's aspirations of the people. However, he is fully aware that it is not the end of the journey. He has a future development blue print for Mahadevapura.(See page 68)

...They waited for 30 years; now share the happiness

A gentle breeze of religious harmony

- 1 Vemana Jayanti
- 2 Kempegowda Jayanti
- 3 Kanaka Jayanti
- 4 Basaveshwara Jayanti

Because of a new tradition of celebrating the birth anniversaries of great people like Swami Vivekananda, Vemana, Kempegowda, Basaveshwara, Kanakadasa, Dr.B.R.Ambedkar, Babu Jagajeevanaram, Draupadamma, Siddarameshwara, Swami yogi Narayana, Sister Nivedita, Pandit Deendayal Upadhyaya, you can see a new wave of communal harmony in Mahadevapura. Such programs which spread the message of unity attract a large number of people. They participate voluntarily irrespective of their political affiliations. Perhaps such celebrations of social harmony might be the reason for peace and harmony in Mahadevapura.. Arvind Limbavali has initiated this tradition of celebrating the birth anniversaries of various great people that give message to society.

Dr. B.R. Ambedkar birth anniversary Babu Jagjivan Ram birth anniversary

Jayantyotsava of Droupadamma

Arvind Limbavali is a very good MLA, who constantly tours the constituency and gets the things done. I am a Christian, along with me there are many Christians running NGOs various kinds of NGOs in Mahadevapura. Being a minor community, we were a bit apprehensive about BJP MLA, but to our pleasant surprise, Arvind Limbavali has given all the support and confidence to the Christian community in the constituency. He knows all of us by name and has supported NGO activities of the Christian community. He also invited us all to Vidhana Soudha, discussed the issues and has solved all our problems. We, the Christian community is safe, happy and satisfied people in Arvind Limbavali 's Mahadevapura constituency.

“Now I am 99 years old. I have seen many politicians and ministers all these years. Arvind Limbavali rarest of them. He is compassionate, popular and pious. Why should I praise anybody at this age? Let the Almighty bless Arvind for his good deeds”

- Shri Veerabhadra Shastri, Hadaganur Temple Priest

There have been several fairs in the Mahadevapura constituency in the last four years. The birth anniversaries of some of the nation's great souls have been celebrated magnificently. The Ugadi festival has become Mahadevapura Utsava and has attracted thousands of families.

Two job fairs were organized in Mahadevapura constituency. 700 employment seekers secured jobs in the first fair, conducted in Immadihalli Government High school premises and 810 people secured jobs in the second fair, organized in New Horizon college campus.

The Ugadi festival which was celebrated in Mahadevapura in the first year was later took the grand shape of "Mahadevapura festival" and was celebrated in a splendid way. From then on, the "Mahadevapura festival", has spread cultural fragrance and has created a sense of unity and mutual admiration. There have been talent hunts in the cultural festivals and selected local talents have been given an opportunity to perform in the Utsava. A new tradition of honouring the local achievers in the cultural field has been initiated. It is unique that people of all political parties along with their families come together to celebrate this festival.

Every year on January 12 Vivekananda Jayanti is celebrated as youth festival. A procession of Vivekananda's portrait and cultural festivals mark this festival. Cricket and volleyball tournaments are also held.

A continuous series of Fairs and Festivals

During festival of lights-Dewali- a get-together will be organized every year to share the joy of the festival.

Mahadevapura constituency is constantly engaged either in employment fairs, talent hunt, Mahadevapura Utsava or in regular festival meets throughout the year. Needless to say that Limbavali's personal interest and his concern have made these special events possible.

Pratibhanveshane

Talent hunt an ongoing process

Mahadevapura, like any other place, is with full of talent. Scouting and recognizing such talent has been a practice since 2008. They were given opportunity to perform in Mahadevapura Utsava. Many of the young talent got opportunity for the first time.

Delectable pictures of Mahadevapura Utsava

Arvind Limbavali's working style as MLA of Mahadevapura in the last four years is highly appreciable. The development works, far reaching administrative decisions, his genteel behaviour in keeping the harmony among all the sections of the society is admirable. He constantly tours the constituency and offers solution to the problems by suitably responding to the situations. He is ahead of the remaining assembly constituencies. Arvind Limbavali has materialised all the dreams of the people who elected him as MLA by developing one of the most backward constituencies in to a progressive one; he has put painstaking efforts in developing peace and harmony of the constituency.

- Shri S.Jayaram
President, Sri Bhumila Venkatanarasimha Swamy temple
Sri Nagalingeshwara Swamy temple

Along with Development, service to Kannada language

When Jātha of Kannada (Nudi Téru) arrived to Mahadevapura, it was received by the traditional salute system. 600 women with auspicious Kalasas welcomed the Jātha. Bike and Auto rally and cultural events were organized to mark the respect to Nudi Téru. Jātha was received at Hoodi railway gate and parted at Iblur junction. The Nudi Teru travelled in Non-Kannadiga localities also and spread the fragrance of Kannada. Mukhyamantri Chandru, chairperson of Kannada Development Authority was astonished by the reception and opined that it was the most special celebration of all.

Besides, many leaders who have been toiling hard for the protection of Kannada language, culture, Kannada interests have participated in the many events organized in Mahadevapura which has become the important assembly constituency of Bangalore that emanates the fragrance of Kannada language and culture.

There was confusion after Bangalore east was divided. Mahadevapura is probably the biggest Vidhanasabha constituency in the state with a large population of Vokkaliga and Reddy community. We were worried how new MLA would develop it. But Arvind Limbavali has been developing the constituency by touring nook and corner of Mahadevapura. He makes use of all the resources and schemes of the Government . Earlier there were politically motivated crimes . But now we can say that such cases do not exist here. He is handling this constituency without ever making us feel that this is a reserved constituency which is appreciable. A cordial relationship has grown among people of all communities and the people in this area have now received the much deserved peace to lead a happy life. If he is the MLA in the coming years, this area will definitely witness maximum progress.

-Shri Aswathkumar,
President, Vokkaligaa sangha, Bangalore East.

He is a care taking man from next door in the Mahadevapura assembly constituency. He just stands still and listens the problems, issues and concerns of people carefully. This distinct character of Shri Arvind Limbavali has made him a good public servant. He has acquired these finer qualities from student days.

Arvind Limbavali started his social activity as RSS worker in 70s and consequently as a student leader in ABVP in the early 80s. He was ABVP state joint secretary for six years from 1986. In 1987 he was convener of Karnataka State Polytechnic Action Committee to fight against the problems of polytechnic education. His conviction to bring change in education through students and youth movement made him a popular leader.

By then there were various polytechnics which had mushroomed throughout Karnataka, characterized by bad infrastructure and education system, many students felt exploited.

Arvind Limbavali immediately plunged into the student's movement and fought against the depraved education system. The whole state was shocked when he brought out the report delineating the deplorable conditions of hundreds of polytechnics. In the popular Kannada weekly magazine 'Sudha', where an article portrayed about the poor conditions of these polytechnic institutions and brought it to the notice of the public and

- 1 Meet with students of north eastern states
- 2 Leadership in Students' Parliament
- 3 Participation in student leaders' convention

- 1 1992: a massive rally in which one lakh students participated. Arvind Limbavali played an important role as the state convener of the rally
- 2 3 4 5 1997: Arvind Limbavali in Indian young politicians' delegation to United States to study good governance.

- 6 Release of party's manifesto
- 7 A lingering moment during BJP's early days

the Government is now a history. His fight against the Engineering education system is also noteworthy.

Arvind Limbavali was instrumental in organizing the massive rally 'Save Campus' in 1992. More than a lakh students participated in this rally in which more than 120 demands were put before the state Government to improve the education condition. The rally in terms of its size and number is still a national record.

By then, Arvind Limbavali was one of the national secretaries of ABVP. He actively participated in 'Save Kashmir' movement. He continued his struggle for student community as the state secretary of ABVP. After decades long service to the student and youth community, on the advice of party elders he joined the BJP in 1995.

Joining BJP: A new journey

Initially, Arvind Limbavali was assigned to take up the responsibility of BJP Yuva Morcha as general secretary. However, soon party felt his necessity and assigned him greater responsibility in BJP as state secretary. Arvind Limbavali spent 12 years in the post and put efforts to build the party from the village to state capital. He has the distinction of being the only general secretary, who was also in charge of Organization, election management,

Political affairs, Media management which made him understand the complexities of the society. During the same period he also served as National executive member of the BJP.

Limbavali's well accepted character in the party from all corners had brought him the membership of the legislative council in 2004. He won Mahadevapura assembly segment in 2008. Since then, gaining public support, responding to their basic needs and fulfilling their aspiration has created history.

Representative of people's voice and a cabinet minister

His born fighter instinct is intact, even though he is an MLA and minister. He has fought against the problems of Mahadevapura and has always won!

Experience of more than a decade of leading youth movements, later many years of active and decisive politics and experience in legislative council - all these have significantly contributed to Arvind Limbavali to win the Mahadevapura constituency and be a successful MLA.

Another nature of Arvind Limbavali which is hardly seen in the public is that he never forgets the issues brought to his notice. He follows them up on a regular basis, but never utters it to the public! They would only come to know after the

- 1 Taking oath as member of legislative council
- 2 Meeting the then Vice President of India, Shri Bhairon Singh Shekhawath
- 3 In one of the party meetings
- 4 State level convention of party workers

"I have been BJP activist since 1983. I have seen many politicians and leaders. But Arvind Limbavali is one of those important, highly disciplined soldiers who participated in movements and evolved from grass root levels to be successful MLA. When asked to resign from ministry, he did so without hesitation. It reminds me of Sri Rama who followed his father's words with great respect. His uniqueness lies in the fact that he has been able to identify himself with all the sects of the constituency. He is a model MLA and his working style is example for everybody"

- Sachidananda Murthy,
President, Bangalore urban district, BJP

problem is fixed. A man down to earth follows “to the point philosophy”, never believes in wasting time. His workaholic attitude displays records of all the developmental works he has undertaken. They are classified on a ward basis. People can always get detailed information about any project without exercising “Right to Information”!

As minister for Higher Education minister, Arvind Limbavali gave a new dimension to the education system in the two years of his tenure. However, he never ignored the development of his constituency even when he was busy as a minister. A mandatory visit to the constituency, inspection of developmental works, reaching out to people’s issues- This is a typical day in the life of Arvind Limbavali.

While he was the Education Minister of Karnataka, he took bold decision to create awareness about Terrorism in the youth and organized several movements against it. The slogan” Fight terrorism, Save the Nation” echoed throughout Karnataka. The last rally which took place in Bangalore on February 28th 2009 attracted lakhs of students. Various dignitaries of India and Karnataka prepared the youth for taking an oath to protect our country and called for unity to fight against terrorism. Limbavali proved that the education department need not only conduct exams but can also teach lessons of love for your society and country.

Very recently, Arvind Limbavali has been assigned a new responsibility. He is a new Health minister in the reshuffled Karnataka cabinet. Even Health ministry started benefiting from his pro-people attitude.

A pleasant moment with Gujarat Chief Minister Sri Narendra Modi and Sri Ananth Kumar

Arvind Limbavali’s personality does need any over statements. This book is enough to talk about Limbavali’s achievements, his vision for development, his commitment to quality education, health and the initiatives he has taken to ensure it.

There is a saying, a true leader, who is not racing for power or position will always have sparkling self confidence. Limbavali is one such leader. His self confidence is his road ahead and people’s blessings are the leading lamps to him.

What else do you need to achieve great goals?

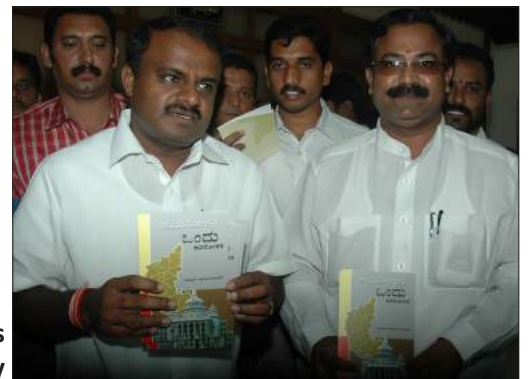

Arvind Limbavali was an active participant in all the important events and organisational activities of BJP including Sankalpa Yatra. He was also participant in party led social movements.

A book on regional Imbalances authored by Arvind Limbavali was released by the then Chief Minister Sri H D Kumaraswamy

Various glimpses

Be it a small Get together, associating with children, sharing emotional moment with minorities, or convincing northeast youth to stay back in Bangalore. . . Arvind Limbavali has a unique quality of behaving with societal love in all the moments of his life.

Education sector: A spectacular achievement

Karnataka for decades has been in the vanguard of Higher Education. After 80s, Karnataka saw a rapid growth in number of educational institutions. By 2008, education sector was facing many serious challenges. Arvind Limbavali brought about maximum qualitative and constructive changes to this task of developing human resources. His success as education minister is evident in the decisions he took, the programmes he introduced, the schemes he implemented. The main motif of his administration was that the future of the college students must be bright, parents should neither have confusion nor worry, there must be responsible and transparent administration, Karnataka should retain its lead in Human Resource Development.

Ascertain the achievements enumerated in subsequent pages and decide for yourselves!

In a bid to save Nationalism and Heritage

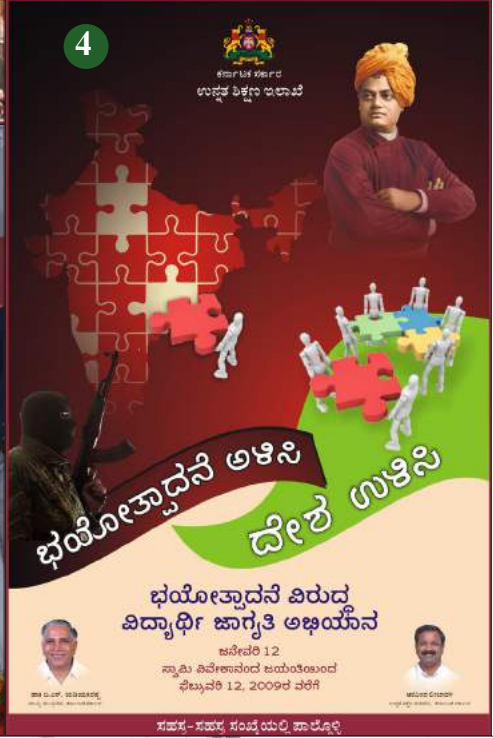

Country's first ever

Anti-Terrorism campaign

Students' awareness campaign against Terrorism lead by Arvind Limbavali

- Direct participation of 12 lakh students
- Wide appreciation from all states
- Inaugural function at Mangalore
- Valedictory at Bangalore Palace grounds
- Participation of Shri L K Advani, Shri Ananth Kumar, Shri B.S. Yeddyurappa, Sri Bala Gangadharanatha Swamiji, Sri Ravi Shankar Guruji, parents of martyr Unnikrishnan and other dignitaries.

- 1 Huge gathering of students in Bangalore

Establishment of Karnataka State Knowledge Commission

Establishment of State Knowledge Commission in Karnataka for the first time in the nation's history was an outstanding achievement by Arvind Limbavali.

Karnataka Higher Education council

With the ambition to achieve global quality and standards in higher education the Higher Education council was set-up. It is one of its first kind in the nation.

First step towards decentralization: Establishment of new Universities

As minister of higher education, Arvind Limbavali initiated the process of decentralization in the department and based on the guidelines of UGC, established new universities.

The colleges of Davangere and Chitradurga districts which were part of Kuvempu University brought under Davangere University. Likewise, Colleges of Belgaum, Bagalkot and Bijapur districts were brought under Belgaum Rani Chennamma University and Bellary Sri Krishnadevaraya University was established and colleges of Koppal and Bellary were merged in it. Law University of Hubli was made fully functional. To fulfil the aspirations of the artists and intellectuals and to implement the recommendations of the Knowledge Commission, a Folklore University was proposed to be established.

Special Universities

Establishment of two special Universities during Arvind Limbavali's tenure as a higher education minister was a milestone achievement. A Music University named after music maestro Dr.Gangubai Hanagal at Mysore and Sanskrit University in Bangalore are the two special Universities.

Based on the recommendations made by Knowledge Commission and report of the committee headed by former vice chancellor Dr. Rudraiah, existing Bangalore University was proposed to be divided into three Universities.

- 1 Arvind Limbavali with former President of India Dr. A P J Abdul Kalam and former Governor of Karnataka Shri Rameshwar Thakur
- 2 Discussing with former AICTE chairman Shri Yadav
- 3 With Bangladesh Education Minister Shri Rehman
- 4 With UGC chairman Shri Sukhdev Thorat in New Delhi.

CET: Path breaking initiatives

- The Government is committed to provide quality technical education to the students of Karnataka state and elsewhere. It is also committed to implementing uniform Common Entrance Examination system. Necessary guidelines were drafted at Government level
- Belief in the decentralization has been proved in opening up CET counselling centres at Hubli, Mangalore, Shimoga, Davangere.
- To help-out poor students, Government announced discount of 15,000- 25,000 in engineering fee-structure; during 2009-10, 20,500 students were benefited from this measure.
- Efforts were made to synchronize COMED-K exams with CET
- To reduce psychological pressure on the students, medical and engineering CET exams were conducted for two days instead of single day which got accolades from students and parents
- In order to save one precious year of student, provision was made in the CET counselling for the students who write supplementary exams
- Appropriate measures were taken to raise Karnataka education standard to global level
- Bank loans to the meritorious students at lowest interest rate, i.e., @ 6%
- 5% reservation in Government seats for students studied in Kannada medium
- New professional courses in Aeronautical, Robotic, Mechatronics were introduced.

Evolving a common, uniform Act

Many Universities in Karnataka, due to various reasons have been functioning under different Acts and guidelines. Knowledge commission of Karnataka, under department of Higher education brainstormed to get all Universities under one umbrella and a committee headed by Dr. N.R Shetty, a noted educationist submitted its report to the Government.

Increasing grants to the Universities

Due to several reasons, different Universities of Karnataka state received smaller amounts of grants. Though revision of grant system was long due, never materialized. Realizing lapse in the system, a policy has been drawn to overcome it and grants were proportionately increased every year.

Concept of model Universities

Mysore and Karnataka Universities were selected to re-structuring process to make both the universities as state-of the art globally qualified qualitative Universities.

Approval for new private Universities

Many private institutions expressed their interest in establishing private universities in the state. Among them, Azim Premji University qualified all requirements and bill was passed in the assembly. Alliance University got approval later and started functioning.

Sixth pay scale for University lecturers

Effecting from 01.01.2006, the Karnataka Government has introduced sixth pay scale to all University lecturers. Lecturers' community feels that it is one of the revolutionary steps taken by the minister.

Pupil centric Education system

As Higher Education Minister, Arvind Limbavali initiated consultative meetings with intellectuals, artists, educationists and scholars to evolve student centric learning pedagogy. Several student centric programs were organized. A round table conference was organized with leading educationists of the state to discuss the formalities to bring in the higher education under Nation Council for Higher education and Research recommended law. The representing observation and opinions of the state was submitted to the union Government along with state's suggestions.

International knowledge sharing program

Under an International Knowledge sharing initiative, Education department had arrangements with University of Deaken, Australia, Ghent University in Belgium and some of other international universities and student and scholars received learner centric programs accordingly.

Special grants to Kannada Departments

For two years now, the Government made budgetary provision of 2 crore to each University to encourage research work in the field of Kannada language, literature and culture. This provision marks official classical language status to Kannada Language.

Necessary steps to improve enrolment in Higher Education

India, even though country with a huge youth population, only 12.5% youth is enrolled in higher education. It is much less when compared with global ratio. Keeping 15% as a target, supportive measures are taken. These efforts of Arvind Limbavali has yielded fruits and the GER of Karnataka has risen now to a phenomenal 17%.

- 1 With renowned Educationist of India Prof. Yashpal
- 2 A moment with Union HRD minister Sri Kapil Sibal and HRD minister for state Smt. Purandhreshwari
- 3 With AICTE chairman Sri Mantha in New Delhi.

HOSAHEJJE

Department of Collegiate Education was revolutionized by introducing various schemes and initiatives. They are popular, at the same time pro-people policies. All schemes were overwhelmingly welcomed by all section of the people

Aaptamitra

The idea of making optimal use of available resources in Government and private colleges as well the bonding good relation between each other led to formulate a scheme. 192 colleges were identified in this process and 1, 06,500 students were enrolled for this.

Sahayoga

This is a program of collaboration between industry and polytechnics and Government colleges. In the collaborative process, syllabi of these colleges were designed separately and students were trained for those required skills. Initially, 100 colleges of Bijapur, Bagalkot, Kolar district were chosen and 63 thousand students enjoyed the benefits of the pilot project.

Angla

It is said that every layman of every country is a global village citizen! So, English is the global village language. Employment market here and elsewhere is ruled by English! Arvind Limbavali was committed to provide English language teaching to Government college students, who come from economically and socially deprived communities. 366 Government colleges were selected for the first phase of a plan of action and 1.5 lakh students were benefited by it. Language lab and digital library facility were also provided in selected colleges.

Value education (Maanavate)

Provide a certification after graduation is the beginning but it is not the only aim of any education. Hence, values play a major role in shaping of a student and his future life. Same ideology and spirit has made to design curriculum in association with The Art of Living of Sri Ravishankar Guruji.

Internet connectivity

Availability of internet facility to the students of Higher Education is essential and is highly demanded by the students. Keeping the demand in mind, the department had talks with Net Hot zone, a service providing company. Initially ten Government colleges were selected for the same.

Shikshana Adalat

Idea of instituting Shikshana Adalat was to hear the grievances of teaching and non-teaching staff of the Higher education department; address the controversial issues prevailed time-to-time and to rectify lacuna within the system. Shikshana Adalat has successfully resolved 1601 cases-issues related to teaching and non-teaching staff of the department.

Strengthening Polytechnic Education Reinforcing Technical Education Department

Polytechnic education of Karnataka state is the product of great visionary Sir. M. Vishveshwaraiah. However, his vision was never carried forward and kept the Technical education in primitive form. Hence, in the era of Information Technology it lost its charisma which it had once and faded to backdrop. Arvind Limbavali realized the importance of polytechnic in IT age and redesigned the technical education by reinforcing it.

- 15 percent seat reservation in engineering education for polytechnic students ;
- 23 new polytechnics started functioning in Karnataka;
- Salaries of all aided college teaching staff were covered in electronic clearing system;
- During 2009-10 additional grants of Rs.1093.62 were requested;
- Smart cards to every student in order to solve some inconveniences to students and to make polytechnic education more authenticated one;
- Establishment of Sir M.V. Institute of advanced technology at Muddenahalli, Chikkaballapur to mark 150th birth celebrations of Sir M.Vishveshwaraiah.

Community Polytechnic

65 Government and Aided polytechnics were initiated under a community polytechnic scheme, where Rs.13 lakhs was spent as recurring amount and Rs. 17 lakhs spent as a nonrecurring amount on each college.

1885 employment opportunities were created in which 1625 part time Lecturers and 260 contract basis lecturers got the appointment which strengthened the Government rural Polytechnics.

New polytechnics

Five acres each land have been allotted for all newly started polytechnic colleges across Karnataka. The construction work of the 13 colleges sanctioned during 2010 is being completed. These sixty five polytechnic colleges will provide state-of-art technical education in coming years to cater to country's IT demands.

Increase in pay

Remuneration of guest lecturers of polytechnic and engineering colleges have been increased to Rs. 7,500 and 10,000, respectively.

Accreditation to new colleges

10 new Engineering colleges were accredited by AICTE.

Empowerment to rural students: thanks to Edusat

The future of India rests with the rural youth. Understanding this reality Education department decided to provide best available technological support to aspirants of engineering/medical education in rural Karnataka. Providing CET Coaching by making use of satellite technology is a unique and pioneering effort. An effort of the Government of Karnataka, introduced in 2009 enhanced the capacities of rural students and their outstanding performance was evident in CET results. Fifteen thousand students were the beneficiaries of Satellite based CET coaching programme which became a boon to the poor brilliant rural students.

Apart from this, 20% Government Engineering seats at the lowest possible fee of Rs.15,000 were reserved for the students with the annual income below 2 lacs per annum.

- 3 With the representatives from Newyork state university polytechnic, USA.
- 4 Participation in Mysore university doctorate awarding ceremony

Complete fee waiver facility for girl students

Complete fee concession facility for girl students in Karnataka was started in 2008-09. Previously collected fee was reimbursed. A separate budget allocation of 41.6 Crores in 2008-09 and 45 Crores in 2009-10 was made .

Encouraging Higher Education in backward districts

Development of the northern part of Karnataka since independence has always been a political debate in the state. Making Higher education available to everyone is one of the important measures to address regional imbalances. Believing the said philosophy various educational initiatives were taken and colleges were opened wherever found necessary in the Hyderabad - Karnataka region

Implementation of Dr.Nanjundappa committee report

While initiating such process, Dr. Nanjudappa's report on regional imbalances was taken into consideration. Based on the observations made in the report, talukas were chosen to open new colleges. Further, required infrastructure was provided on priority basis.

Aide to private colleges

All aided private colleges commenced during 1986 to 1992 were provided Government aide by taking administrative approval. Also colleges started during 1986 to 1995 by SC and ST were brought under aide facility to uphold the philosophy social justice.

Increase in the remuneration of Guest Lecturers

Providing quality teaching to the students and improving the living standards of lecturers was the commitment of the higher education ministry in Karnataka, all the time. As a mark of its commitment, the Government increased the remuneration of guest lecturers from Rs. 5,000.00 to Rs. 10,000.00.

- 1 Srishti 2010: Addressing students at Engineering students' project Exhibition
- 2 At the convocation of Kannada university, Hampi
- 3 Foundation laying ceremony of Bellary Sri Krishnadevaraya University.

Appointment of Lecturers

Appointment of 2550 lecturers was another revolutionary step taken by the Government . These recruitments qualify the ratio guidelines of UGC and recruitment was done through KPSC selection process. Counselling method for placement helped teachers to choose the place they wanted. The process helped to enhance the quality of work.

Employment fairs

Organizing employment méla's for students of basic sciences and humanities was another step taken by the Education department. Approaching the companies who can provide employment for these students and organizing campus interviews has yielded good results and hundreds of students were benefited by these employment méla's. Due to Arvind Limbavali's visionary processes many of the students have been employed today.

Arvind Limbavali's efforts in bringing qualitative changes in the higher education system by providing better physical infrastructure to the colleges, appointing lecturers and evolving solutions through consultation process made the Higher education sector move ahead. Praise from the parents, academicians and students are well deserved.

Infrastructure development of Government colleges- a ground breaking leap

The department of higher education has not only provided new colleges, but ensured new buildings, other basic infrastructure requirements such as toilets, drinking water facility, working condition laboratories, good libraries and so on. Provision of the law safeguards every student's enrolment and there is a zero refusal of enrolment in all 356 Government colleges. Catering to the children of the most deprived class is the motto of Higher Education department; hence, most of the new colleges were started in rural areas. Attracting rural youth to fundamental science was another dictum of the department.

Reforms in collegiate Education

- Righteous and appropriate justice to the demands of the stop-gap, part-time and contract basis teaching staff
- Approval to appoint 41 grade 1 and 2 principal posts in aided private colleges
- Renewal of NAAC accreditation to 40 Government degree colleges
- Identification of unauthorized education institutions and initiation of legal action
- Training through recognized institutions to IAS, IPS, IFS, KAS and KES aspirants for their preliminary examinations
- Redeployment of the aided PU Government lecturers to degree colleges through counselling
- Salaries with arrears to lecturers of aided colleges on humanitarian grounds, which were graded 'C' by NAAC
- Identification of 100 Government degree colleges to teach science as a subject, accordingly plan was drawn to start courses from next academic year
- 110 new subjects and combinations were introduced in 89 Government colleges
- 37 Post-graduation courses have been initiated in 19 Government colleges
- Ten new degree colleges were started in the last two years
- Discussion on the formation of committees to tackle donation issues at the district level
- The fee - control commission was formed under the chairmanship of retired judge of High court Justice Padmaraj
- Issues related to the posting of teachers was resolved
- Created opportunity for 20,000 NCC cadets for Karnataka State
- Government aid to SC,ST colleges
- Renovation process for heritage colleges of Bangalore city
- Regularization of part-time lecturers (from 1987-1988 to 1992-93)

Celebration of Sir.
M Vishveshwaraiah
birth anniversary
at Directorate of
Technical Education

In order to attract bright students to fundamental science subjects, Arvind Limbavali introduced scholarships and fee concessions. Some of the courses were redesigned and made attractive to the needs of the students.

Hence the role of Arvind Limbavali in bringing physical and qualitative changes in higher education sector is commendable. Majority of the measures he introduced in education sector have received accolades from all quarters, viz., students, teachers, non teaching staff, college managements, parents and educationists.

Appreciation

Shri Azim Premji's letter of appreciation on the occasion of acceptance of Azim Premji University Bill in Karnataka Assembly. Shri Premji whole heartedly appreciated Arvind Limbavali's efforts in strengthening the education system.

Azim H Premji
Chairman

March 19, 2010

**Shri Arvind Limbavali
The Hon'ble Minister for Higher Education
Government of Karnataka
Bangalore**

Sub: Azim Premji University

Dear Shri Arvind Limbavali,

I thank you for taking time from your busy schedule to visit our Foundation and share some of the initiatives taken by you to strengthen the Higher Education system in the State. I was indeed delighted to hear some of your initiatives.

We are happy to learn from newspaper about the passage of Azim Premji University Bill, 2010 by the Karnataka Assembly and the Legislative Council.

I take this opportunity to sincerely thank you for your support in steering the enactment of the first state private university in this part of the country.

I also take this opportunity to reiterate our commitment to the universal quality of Education in Karnataka and across India. We believe that Education is the real gateway for a 'just, humane and equitable society' that is envisaged by our constitution.

On our part, our endeavour is to run the University in a manner to reach out to the talent that exists in rural and urban India and provide equitable opportunity to contribute to the social and economic development of our nation. We will make every effort to ensure that this University will make the State of Karnataka proud in terms of its uniqueness and leadership in creating new knowledge and talent as well as transforming existing talent in the Government education system and outside.

We are confident of the continued support by the Government and people of Karnataka.

Thanking you once again,

Sincerely,

Azim Premji

Tragedy wrought by Floods – A helping hand lent

1

Mantralayam: one of the holy places of pilgrimage for millions of people was virtually submerged in the 2009 floods. Arvind Limbavali actively took part in flood relief work and became part of 'Mantralaya rehabilitations trust' to rebuild the holy place. His devotion, dedication and faith in doing well to the victims were much appreciated by the chief seer of Mantralaya and devotees alike.

2009, a year of nightmare for northern part of Karnataka, as the region encountered one of its worst kinds of floods. Shri Arvind Limbavali soon felt urgency of his presence in the most difficult times of the people. As an in-charge minister of Bagalkot district, he immediately initiated and monitored rescue operations, rehabilitation camps, and finding permanent solutions for the flood with a war foot zeal. His experience as a successful student leader made him to utilize youth force to take-up 'en-mass clean-up' activity in flood hit region. He mobilized Rs 40 Crores from teaching community as flood relief contribution and donated to Chief Minister's relief fund. People from Mahadevapura constituency generously donated food-cloths and essentials to the north Karnataka flood hit victims.

Success follows the leader even as Health Minister

Shri Arvind Limbavali took oath as health minister in newly elected Chief Minister Shri Jagadish Shettar's cabinet. He has gained appreciation of Chief Minister by taking appropriate administrative steps in a very short period. Through his uncompromising nature and style of work he has resolved the issues which were hardened to solve. This section provides his early initiatives as health minister.

Important initiatives

When Shri Arvind Limbavali assumed office as health minister, Doctors strike was to welcome him with red carpet. Pay scale increment, rolling back the district hospitals from medical education department to the health department again, as they were part of the latter earlier, were the demands put forth to minister. Arvind Limbavali succeeded in convincing Chief Minister for pay hike, which was long due in the department. To address the other issue of taking the position of district hospitals- cabinet decided to form a sub-committee headed by Hon'ble Deputy CM Shri R. Ashok. Health and Medical education ministers are members of the committee.

A committee to address the issues of Ayush doctors

It was testing time for Arvind Limbavali as health minister! Ayush doctors declared strike while assembly was busy in business. Arvind Limbavali immediately formed a committee, headed by additional chief secretary to review the three important demands of the doctors.

Measures to control Dengue

Dengue was widespread when Limbavali took over as health minister. With the help of officials, he was able to take appropriate measures and control epidemic. His war foot actions is appreciated across the society.

District visits and start of new hospitals

Arvind Limbavali visited Chitradurga, Udupi, South Canara, Ramanagar and Hassan districts and conducted Health and Family welfare officials' meetings.

Laying down foundation for the extension of Udupi district hospital, inauguration of Chitradurga taluka hospital, inauguration of Hiriya taluka Hariyabbe primary health Centre were the activities Limbavali completed soon after he took over as a minister.

Arvind Limbavali is the vice-president for All India Institute of Speech and Hearing, Mysore. He attended general body meeting, which is a rare phenomena for ministers!

Aid to Endosulfan victims

Due to the effect of Endosulfan pesticide, hundreds of children in many villages in Dakshina Kannada district have been born with handicap and are in deplorable condition. State Government has come forward to offer aid to them. In this context minister Arvind Limbavali ordered to open a Community health centre exclusively for the Endosulfan victims. Coastal news papers evidently praised him as the first health minister who came to Alangaru to see the Endosulfan victims.

Vajapayee Arogyashree to Bangalore:

Vajapayee Arogya Shree is a unique health scheme in the country in which medical insurance up to 1.5 lacs is provided to BPL families. Arvind Limbavali in a mega health camp conducted in Kadugodi recently, extended this unique health insurance facility to the citizens of Bangalore and Bangalore division there by helping millions of needy citizens.

Bird flu – controlled in the beginning

Suitable measures were initiated to nip the contagious disease Bird flu in initial stages which came to Bangalore from abroad. A special task

Arvind Limbavali in a meeting with health ministers of BJP ruled six states, held at Gadchiroli

Arvind Limbavali visited Alangaru, one of the Endosulfan affected villages of South Canara. He initiated various programs to address the severity of the issue

Initiatives to draft Right to Health Act

Introducing Right to Health act is one of the ambitious projects of Arvind Limbavali and it is first of its kind in the country. Arvind Limbavali has had many rounds of discussions and consultative meetings with distinguished cardiac surgeons like Dr. Devi Shetty and other health experts. He also has taken Chief minister into consideration and envisaged Health commission and soon wants to make it a reality.

force was formed for this purpose; in a continuous fortnight operation; diseased birds were destroyed with the help of expert doctors and the other staff Hence Arvind Limbavali has taken many proactive measures in the department of Health and Family welfare in a short span. We can surely anticipate some more achievements in the days to come.

Arvind Limbavali participated in southern states' conference on control of Dengue fever

Mahadevapura 2018: Development blueprint is ready to roll

Dear readers, you have read through the details of development works initiated and completed in Mahadevapura assembly constituency by Shri Arvind Limbavali in these four years. What will be his plan of action in the future, how does he envision the constituency in coming years, what are his dreams and ways to achieve them? Let's find out the answers from Arvind Limbavali himself.

- **Shri Arvind Limbavali, you have completed four years as Mahadevapura MLA. How do feel about the completion of the development works, the constituency has seen?**

The development works completed during these four years were need based. We were successful in identifying the requirements, plan of action to implement them and finally complete it, which really brings satisfaction to me. The party workers, officials and public share this responsibility as well happiness. We meticulously documented everything and completed the tasks within stipulated time.

- **Even now a few of the works are underway?**

It takes time to implement the sanctioned development works. I can say that there is a big list of completed works in Mahadevapura constituency and a few are in progress. Alongside, a long list of sanctioned work awaits us. We are toiling our sweat. I know that everything will not be alright in overnight. However, taking care of the work will expedite the process and people will not be frustrated.

- **Mahadevapura constituency witnesses more road constructions; will you prioritize erection of roads even in future?**

To be frank, the constituency never had good roads. I am happy to say that we have something to show as our achievements. You find highways, main roads, service roads, which are completed. However, we still need to construct better roads. For example I also have a great ambition of constructing over bridges, wherever, railway tracks pass-through in the constituency. We plan to create an internal ring-road in Mahadevapura. The plan has been laid-down to erect 14 main roads. Construction of Eastern approaching road to Bangalore international airport from Parappana Agrahara is also in the plan.

Civil works of signal free corridors are in progress. First signal free corridor starts from HAL and passes through Kundalahalli Gate, Varturu Kodi, Hope form and reaches Sigehalli gate via

I have a dream of making Mahadevapura the foremost developmental model in Bangalore. I have been working towards the dream since 2008. I am sure that, I will achieve the dream with the love and support of the people in another 5 years i.e.,by 2018

Kadugodi. Another road starting from K R Puram hanging bridge reaches Road Number 208 via Garudachar Palya , Hoodi circle, hope farm and Channasandra.

The BBMP road division has taken up arterial and sub-arterial road construction work. Under rural development schemes 100 kilometre long roads will be laid-down in various routes. Erecting peripheral roads are also in the list.

The second phase of `Namma Metro' will cover Mahadevapura, Garudachar Palya, Graphite India, Doddanekkundi industrial area, Vishveshwaraiah industrial area, Vaidehi hospital, Satya Sai hospital, ITPL, Whitefield, Hope form and finally reaches Kadugodi railway station.”

Construction of pedestrian bridges is also in the list.

▪ **Have you prepared an action plan of future works in the constituency?**

Indeed in addition to the works completed in last 4 years we have the responsibility to complete many works that have been sanctioned recently. In Gunjuru an international sports stadium will be constructed, which will be stretched to 27 acres. Construction of Vemana Jnana Mandira and Vemana Ranga Mandira in Doddakannalli; providing more and more basic infrastructure facilities in EPIP area is the priority. I am aware that constituency needs some more primary health centres. The hundred bed hospital is planned in the Siddapura village in Hagadur ward for which the foundation stone laying ceremony took place in the presence of the Chief Minister recently. We need to strengthen education sector. So we need to start ITIs, polytechnics, along with degree as well Pre-university colleges. We have plans to build a market place in Varturu. We also have plans to rehabilitate people live on tank-bund area. For the comprehensive development of lakes from BDA, we have evacuated encroachers of Varturu and Bellandur lakes and tender has been called for chain linked fencing. Rs. 850 crore Detailed Project Report (DPR) is ready for the development of these two lakes.

▪ **What is your plan of action for social development?**

In these four years the crime rate in Mahadevapura has drastically been reduced by 25%. I will put my efforts to reduce it further. I am committed to the upliftment of all SC, ST, OBC people and the poor of my constituency and their social development. We implement all state and BBMP social schemes and programs with complete seriousness. Shelter and water for the homeless is my slogan. My aim is to provide all basic facilities, including water to all 34 villages which have been included in BBMP jurisdiction.

▪ **What is your overall feeling, when you look at the work you have done?**

I have a dream of making Mahadevapura the foremost developmental model in Bangalore. I have been working towards the dream since 2008. I am sure that, I will achieve the dream with the love and support of the people in another 5 years i.e.,by 2018.

I have a dream that in coming 5-6 years Mahadevapura should emerge as the foremost developmental model of Bangalore

Some developmental works might be slow pace; but don't think that they are not given priority.

I have been continuously organising review meetings and discussions with the officials in order to get all the developmental works to be implemented. I humbly submit that I have spent most of my time in activating the administrative machinery.

ANNEXURE

You have read through Mahadevapura Development work and its facts and figures map in page number 13. Following pages give you the details of the works.

Note: The facts and figure shown and quoted in the book are taken from the authentic sources. However, readers can contact Arvind Limbavali's MLA office for further enquiry.

ANNEXURE 1

- **Public Works Department (PWD)** (Main roads, high mast lights)
- **Rural Development and Panchayat Raj (RDPR)** (Roads, drainage and drinking water etc)
- **Pradhan Mantri Gramin Sadak Yojana (PMGSY)** (Roads)
- **BBMP solid waste (BBMP SWM)** (Main roads and roads of residential areas)

Completed works

VILLAGE	WORK	AMOUNT (IN RS. LAKHS)
	● Public Works Department	
	Bidarahalli

- Vemana Jnana Mandira in Doddakannahalli

This is just a beginning

Dear friends and well-wishers,

You have just glimpsed the development works I have taken up and completed in the Mahadevapura assembly constituency. I am eager to know your response after you read this book

I have presented the 'audit report of development' as part of my responsibility and with genuine intention of putting forth the facts to people of my constituency but not just to showcase my achievements.

While presenting the fact-sheet, I am fully aware that, my constituency is not free from all problems, challenges and difficulties. However, I am also cognizant that, there is a lot more to do, as Mahadevapura was deprived from development for decades! Nevertheless, I and my team honestly believe that, all implemented and sanctioned, yet to be completed programs-schemes are the first step in our epic journey towards development of Mahadevapura,.

Please let me know lapses if any, in the development works of the constituency. If you are convinced about the good work done, I request you to share it with others.

Mahadevapura constituency is unique in every aspect: its geographical location, people with diversified background, multi-language speaking, and semi-urban, semi-rural folk and varied industries. I have tried to evolve a development plan for Mahadevapura along with the communities live here. I am blessed with the team of hundreds of committed party men, honest officials, Intellectuals and social workers, who have always been helpful and supportive in taking up any task which will add to the development of the constituency. I assure that my sincere efforts will continue even in future.

To quote Basavanna, the Spiritual leader and Social reformer of 12th century

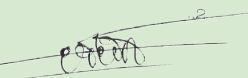

The profession of a person shall be such that it is useful to the society; its gains should not only to the person but also to the society. Only then selfishness will be subdued and helps cosmic energy descend in to our inner selves. There is no discrimination in work. Everyone ought to do one's work.. One more tenet of 'KAYAKA' philosophy is that person should cleanse himself by completing each day's work within that day.

These words of Basavanna are leading light to me. Accordingly I have put all efforts to complete need based and urgent tasks. Planning, discussion and preparation of action plans for the remaining works is going on. Your valuable suggestions, feedback, comments, criticism, opinions are most welcome and will be incorporated into our future plans.

I sincerely thank you all, for giving me an opportunity to exploit all my experience for the development of the constituency as your representative. I have the humble pride that in these five years of camaraderie I have succeeded in walking with you and have become your man. To keep this pride intact your continuous affection, support, love and friendship is needed even in future.

Join me; Let us make Mahadevapura the pinnacle of the development index of Bangalore.

Yours for ever

(Arvind Limbavali)
